Jason Gibbs,

You asked me to contact you regarding me Facebook post.

I live on Olympian Ct in Canyon Country. I am the treasurer for the Shangri-La HOA. My street is divided not in the middle but just a line going through it. My next door neighbor is in a different district than I am. I am assuming the division is by the numbers of Hispanic surnames rather than any other reason.

With a divided HOA, anytime we have a city problem we are bound to hear, 'that is in the other district'. This will dilute any small power our HOA will have with the City. Personally I have worked with the City on two different HOA issues with satisfactory outcomes. I do not think I can count on future situations outcomes.

Shangri-La is a melting pot of many different ethnicities. And Hispanic surnames are pretty meaningless. I am 97% Northern European and 3% Iberian. Even my ex-husband's name is Spanish rather than Central American.

In my opinion when people come from Mexico they quickly become American citizens with the same issues as everyone else. They don't need to be racially divided.

I do believe that we are being forced into districts but I beg the council to move our home 134 homes into the same district, preferably district 2 with similar households.

Thank-you,  
Donna Kimberly McWilliams Escamillo
