

Project Location:

Placerita Creek.

Description: This effort will provide for regular environmental monitoring of Placerita Creek and the creekbed to ensure rehabilitation of natural plantlife areas that were disturbed by the recently completed Placerita Canyon sewer.

Justification: The City is obligated by the California Department of Fish and Game to provide for monitoring of Placerita Creek and the creekbed for a period of five years as a condition of the previously constructed Placerita Canyon sewer, which was accepted by the City council in the fall of 2005. The requested funding for monitoring represents residuals from the construction phase of the Placerita Canyon sewer.

Project Status: Approved. **Department:** Public Works **Project Supervisor:** Curtis Nay
