November: "My Family and Friends"

We are so thankful to have such wonderful students in our class along with their supportive families. We have enjoyed getting to know each student. We love watching them explore, learn new skills, try something new, build fine motor muscles, and make new friends all while having fun.

Our theme for November is "Family and Friends!" We will be celebrating friendships and love for our families. We will also discuss the things we are thankful for, talk about manners, sharing and how to be a good friend.
