## Class III Application

The [Class III application](#) is a discretionary process for reviewing uses that may be appropriate in the applicable underlying zone, but whose effects on a site and surroundings cannot be determined before being proposed for a specific site. The following Class III applications require [public notification](#), but do not require a hearing unless one is requested. Check all that apply to this project:

- Adjustment (ADJ)
- Minor Use Permit (MUP)
- Administrative Sign Variance
- Historic Sign Designation

The above entitlements will be reviewed by the Director, unless a request for an administrative hearing is filed. In the case of a request for administrative hearing, the Hearing Officer will review the application. The Director may also separately choose to refer a Class III application to the Hearing Officer. The following is a flowchart with approximate timelines associated with the review of Class III projects:
