Fire Protection

Program Purpose

The purpose of this program is to provide fire prevention, protection, and suppression within the City boundaries.

Primary Activities

The Fire Prevention and Protection Program responds to various emergencies including, but not limited to, providing fire prevention and public education programs and responding to public and City's assistance calls. Fire protection and prevention services are provided to the City by means of the wildfire protection district. Costs associated with services are deducted from property tax prior to distribution to the City. The \$35,000 budget is the cost for services in an area within the City, however, not within the district. Given this amount is not paid through property taxes, the City must remit fees directly.
